

Don't Settle for a locking device, DEMAND Hubbell Twist-Lock®!

■ Insulgrip®

There is no company more synonymous with Twist-Lock® devices than Hubbell. The Insulgrip® product is the foundation to the Hubbell Twist-lock® family, offering the broadest breadth of line on the market today.

■ Safety-Shroud® Twist-Lock®

Impact Resistant thermoplastic housings for heavy-duty industrial environments, the Hubbell Safety-Shroud® eliminates bent and broken plug blades, leading to longer equipment life and extra personnel protection by reducing chance of contact with energized blades.

■ Hubbell Twist-Lock® HBLMITL Interlocks

Hubbell offers the only mechanical interlock for Twist-Lock® devices. This new, unfused mechanical interlock for watertight Safety-Shroud® Twist-Lock® integrates a watertight receptacle with a linked disconnect switch to provide a mechanically interlocked receptacle.
